_Every two years, Leisure Travel Vans purchases a high-resolution, high-definition camera and installs it on the front of every Traveler’s Club motorhome. The cameras allow us to monitor any potential issues with the road or the vehicle’s exterior. This helps us ensure the safety and security of our customers._
Our vision is to be a premier company. We're inspired by the freedom to explore and driven by a commitment to growing our community.

In 2015, we were proud to celebrate 50 years of business in the recreational vehicle industry. We look fondly over our journey with a deep sense of gratitude to those who went before us, to our loyal customers who have supported us, to the many hundreds of employees who served the company so well, and to our dealers who represented the company and sold our products.

Our story began in 1965 when P.W. Enns, who owned a plumbing and heating business in Winkler, Manitoba, Canada, took an interest in manufacturing travel trailers while visiting Elkhart, Indiana, on a volunteer trip. Arriving home with his newfound business venture, he enlisted the help of his two sons-in-law, Philipp R. Ens and Peter Elias. With enthusiasm and energy Triple E was born. The three Es – Enns, Ens, and Elias – became the components of our name, Triple E Recreational Vehicles.

The company started with great modesty. What began as a family-owned operation, with a small group of employees, has today developed into a leading RV manufacturer. Over the years many different models were introduced. From travel trailers, fifth-wheels, Class A motorhomes to our current line-up of Class C motorhomes, these products represent over 50 years of hard work, and hundreds of thousands of hours of commitment and dedication from our employees.

Triple E is fortunate to be located in an area with a rich cultural heritage. Our employees are highly skilled craftspeople with strong work ethic and unwavering dedication. Our commitment to quality and listening to our customers' invaluable feedback has been the foundation of our success. We have seen many changes within the RV industry and, today, Triple E remains one of the last surviving RV manufacturers in Canada.

Today we look to the future with renewed energy and optimism. The company has strong leadership and an excellent workforce. Our products are recognized as some of the finest in the industry. The next generation of our company is driven by innovation while remaining committed to our long-standing history of quality craftsmanship.

Over 50 years later our vision remains committed to being a premier company. We're inspired by the freedom to explore and driven by a commitment to growing our community of employees, customers, dealers, suppliers, and our local community. May you experience the joy of companionship, surprise and adventure, as the road leads you on your journey ahead.
